

Jui-Jen Chang

Associate Research Fellow, Department of Medical Research,
China Medical University Hospital, Taiwan

Education:

Ph.D., Department of Life Sciences, National Chung Hsing University, Taiwan (2001-2006)

B.S. Continuing Education Credit Courses, Multi-Discipline Management of Technology, National Chengchi University, Taiwan (2014/3-2014/6)

B.S., Department of Nutrition, Chung Shan Medical University, Taiwan (1997-2001)

Professional Career:

Visiting scholar, Joint Genome Institute, Department of Energy, USA
(2016/8-2016/9)

Visiting scholar, Department of Ecology and Evolution, University of Chicago, USA (2012/6-2012/10)

Postdoctoral Fellow, Genomics Research Center, Academia Sinica, Taiwan
(2008/6- 2013/08)

Visiting scholar, Institute for Advanced Biosciences, Keio University, Tsuruoka, Japan
(2008/6-2008/7) (2010/8-2010/9)

Postdoctoral Fellow, Biotechnology Center, National Chung Hsing University, Taiwan
(2006/6-2007/5)

Research Interests:

Synthetic biology and its applications.

Biofuel and environmental biotechnology

Designer cell factory for production of functional metabolites and biopharmaceuticals.
