

The New Equation for Our Low Carbon Future

Niven Huang

Regional Leader

KPMG Sustainability Services in Asia Pacific,

Taipei, Taiwan

Abstract

Five of the global top ten risks are exactly related to climate change, according to the World Economic Forum's latest report. A must to transform our world to low carbon economy is a pressing challenge than ever. Dr. Niven Huang will highlight the vital sign of global low carbon transformation, followed by emerging driving force from sustainable finance. How to move forward with a global momentum for mainstreaming the new climate economy will be then addressed.
